

Do not hesitate, join the SpeakApps community!

## SpeakApps is

A multilingual European project involving 6 languages (English, Catalan, Dutch, Irish, Polish and Swedish) and 5 countries (Spain, Netherlands, Ireland, Poland and Finland).

A series of free online tools to enhance oral skills among your students. Useful both in face-to-face courses or online courses.

A collaboratively-based repository of supporting activities and methodologies to be carried out in your classroom.

An online platform to access the tools and organize your virtual classrooms at your wish.

## SPEAKAPPS PARTNERS

Universitat Oberta de Catalunya  
University of Groningen  
University of Jyväskylä  
Jagiellonian University in Krakow  
Dublin City University

## Oral production and interaction in a foreign language through online ICT tools

## Collaborate with us!

There are several ways to start collaborating with us:

- 1 Enter our **Moodle platform** by creating a free account and try out our tools and methodologies. Tell us what you think.
- 2 The SpeakApps tools are **Open Source**. Download and install. Help us develop further.
- 3 Visit our **Open Educational Resources** repository. Browse, download, upload and comment on existing activities. You can copy and adapt them to your needs using the OER editor.
- 4 **Join our community** and share your ideas and experiences on language learning, specially related to oral skills, with other teachers.
- 5 Help us adapt SpeakApps to **other languages** or even other learning contexts.

Teacher training sessions & Online teacher training programme

20

Slides and other documentation available through SlideShare

More than 50

Presentations at national and international events

up to 12.000

visits to the website, with more than 7.000 unique visitors and nearly 27.000 page views

## Tools

+ These tools are available in all 6 SpeakApps languages and open to be adapted to many others.  
+ There are also InfoBlogs available, with user-guides and pedagogical guides.

### langblog

A blog with audio and videofunctionalities for practicing oral production and easily assess your students.

### tandem

An application for administering materials to students engaged in information gap activities in real time, either inside or outside the classroom

### videochat

A system to allow your students to conduct videochat sessions, record them and archive them in very few clicks.

## Community

+ Twitter: stay up to date and comment about SpeakApps in 140 characters.  
+ Create a group in the SpeakApps platform and share ideas and experiences.  
+ Technical Support Blogs for every tool and for the platform.

25

Videos on YouTube, with more than 3.000 views

## Working environment:

SpeakApps Moodle platform:  
+ The online environment to access project tools and resources.  
+ Available in up to 6 languages.

## Open educational resources (OER)

+ Projects, activities and tasks available for all 6 SpeakApps languages.  
+ Multiple search criteria possibilities: by type, language, tool, CEF level, etc.  
+ Useful contents for face-to-face, blended and distance learning, whether using SpeakApps tools or not.  
+ Built within a wiki environment, easily allowing contributions, collaborations and feedback.
